NEWS RELEASE – June 19, 2006

SmarTire to Provide Tire Pressure Monitoring System for Installation on Fleetwood Motorhomes

Richmond, British Columbia, Canada, June 19, 2006 -- SmarTire Systems Inc. (OTC Bulletin Board: SMTR) announced that Fleetwood Enterprises, Inc., one of the largest RV manufacturers in North America, will install SmarTire's SmartWave™ tire pressure monitoring system (TPMS) as standard equipment on its high-end Heritage line of American Coach brand motorhomes.

“Tire care and maintenance is critical to the safety of our motorhome customers,” said John Millis, American Coach product manager of Fleetwood, “and at American Coach, we want to provide them with the most advanced, effective solution available in the RV industry today. We believe SmarTire’s TPMS solution meets that goal.”

Dave Warkentin, vice president sales and marketing of SmarTire Systems, said, “Fleetwood is a market leader, not only in the number of RVs sold, but in vehicle standards, quality and innovation. We are very pleased to be working together to offer their customers the finest TPMS in the marketplace.”

SmarTire's SmartWave™ TPMS improves vehicle safety and performance by providing drivers with real-time tire information while their vehicles are in motion. At the push of a button, the SmarTire system displays each tire's pressure and temperature information. If the system detects a loss of air pressure or abnormally high tire temperature, the driver is immediately alerted by a bright warning light and an audible alarm.

About Fleetwood

Fleetwood Enterprises, Inc., a Fortune 1000 company, headquartered in Riverside, California, is dedicated to providing quality, innovative products that offer exceptional value to its customers. Fleetwood operates facilities strategically located throughout the nation, including recreational vehicle, manufactured housing and supply subsidiary plants. For more information, visit <http://www.fleetwood.com>.

About SmarTire Systems Inc.

SmarTire develops and markets proprietary advanced wireless sensing and control systems worldwide under the SmartWave™ trademark. The company has developed numerous patent-protected wireless technologies and advanced tire monitoring solutions since it was founded in 1987. The company's proprietary SmartWave platform provides a foundation for the addition of multiple wireless sensing and control applications. The initial product release on the SmartWave platform is SmartWave TPMS, which leverages on the company's background and knowledge in tire monitoring solutions. SmarTire has offices in North America and Europe. For more information about SmarTire Systems Inc., visit <http://www.smartire.com>.
